

## Course Equivalence Form for Combined Plan Students: Major Requirements

This form is for Combined Plan students to verify equivalence between major-specific courses, including technical electives, taken outside Columbia University and courses offered at Columbia. Any courses directly related to the engineering major must be approved by the appropriate faculty member at SEAS. Please note that courses already counted toward foundational prerequisite course work cannot be double-counted toward major-specific credit requirements/equivalencies.

Course equivalency can be evaluated during August orientation or during the fall of your first semester. Combined plan students must request course equivalencies no later than the end of their first fall semester.

Only one course should be evaluated per form.

### ***Instructions to the student:***

1. Attach a transcript from your home institution and highlight (or circle) the course you are requesting to be evaluated. Equivalence will not be considered without a transcript.
2. Bring all course materials (catalog description as well as the syllabus used by the instructor at the home institution) along with this form and transcript, to the appropriate departmental instructor for review and signature. For courses not taught in your major's department, you should meet with the faculty member who teaches the course you are trying to get equivalency for.
3. After the appropriate instructor has approved the course for equivalency, please meet with an adviser in your major department to obtain their signature. Your faculty/departmental adviser should keep a copy of this form.
4. Bring a copy of your completed and signed form(s) to your Advising Dean at the Center for Student Advising who will save the document(s) in your permanent file.
5. Retain a copy of this form for your records.
