CHAPTER RESIDENCE EXPECTATIONS

The assignment of a brownstone by the University to a Chapter is regarded as a privilege. In order to maintain this privilege the Chapter Residence Expectations were developed. These are standards by which the Office of Residential Programs-Fraternity & Sorority Life agrees that a fraternity or sorority may reside in University-owned property. These expectations are a part of the Fraternity & Sorority Recognition Policy. Failure to meet these expectations may result in a change in Recognition Status. The Chapter Residence Expectations may be amended, rescinded, or superseded at any time by action of the Office of Residential Programs-Fraternity & Sorority Life.

I. Terms of Chapter Residence Expectations

A. The Chapter Residence Expectations are in effect from July 1st of the current year to June 30th of the following year.

Trash
Dispose of items properly before leaving, as garbage removal prevents pest problems. For your convenience, large plastic bags are available from your super.

When disposing trash, please use the following guidelines:

GENERAL CHAPTER RESIDENCE POLICIES

All policies stated in the Guide to Living are applicable in the brownstones. It is the responsibility of the House Manager to ensure residents are educated and all policies adhered to. The policies stated below are in addition to those listed in the Guide to Living.

I. Cleaning Services
For University-owned facilities staff is assigned to provide basic cleaning services. Common rooms, shared bathrooms, hallways, trash removal, and mopping of common areas are basic services provided on a regular basis. This DOES NOT include washing dishes or cleaning obstructed countertops. If your chapter residence is not being maintained please contact Housing Services. Cleaning schedules will be posted by facilities staff.

II. Trash Removal
A. Unacceptable Items for Trashcans
Any type of chemicals, paint, car batteries, hazardous waste, refrigerators, tires, used oil, propane tanks. These items should be disposed of according to label on the item.

B. Area around the Trashcans & Sidewalks
- Keep the area tidy around the trash cans
- The staff needs a clear shot at the front of the container to place it on the curb. If the truck comes and the trash is not placed on the curb they will leave. This delays the pick-up to another day.
- DO NOT PLACE ANYTHING OUT ON THE SIDEWALKS! Please inform your super that you need large items disposed of i.e. cardboard boxes, furniture, etc.

The residents are responsible for disposing of trash in the proper receptacles. Trash is removed from each chapter residence on the following days of the week:

**MONDAY, WEDNESDAY and FRIDAY**

Large items are removed on the following days of the week:

**MONDAY, WEDNESDAY and FRIDAY**

*Only six items at a time will be removed. Example: 6 sofas or 6 refrigerators without doors*

**Contact the brownstone Superintendent for large item removal**

III. Recycling
All fraternities/sororities or privately owned housing, must participate in both Columbia University and New York City recycling programs:

All fraternities in brownstones and residence halls must participate in the following CU recycling programs:
- White paper recycling
- Returnable can and bottle collection for the homeless
- Newspaper recycling
- Upcoming programs including cardboard and scrap metal recycling

Privately-owned Housing- All fraternities and sororities in privately-owned housing must comply with NYC Recycling Programs which include curbside pick-up of newspaper, magazine, and cardboard. The residents are responsible for proper removal of recyclable waste. Any groups which do not comply with these laws may be severely fined by the NYC Sanitation Department.

**Recycling is picked up on FRIDAYS ONLY**

IV. Exterminator
Exterminators visit the chapter residences once a month. If your residence needs additional service please talk to your porter.
V. Columbia University Noise Policy
Occupation of a chapter residence is a \textit{privilege} that is accompanied, however, by the responsibility or respecting the needs and rights of neighbors who may or may not be part of the college community. Organizations in off-campus housing should be particularly sensitive when addressing complaints from the community about disturbances such as noise.
The purpose of the following policy is to provide a clear definition of noise and related violations and how to anticipate them.

E. Noise
There should be no loud noises emanating from the house, its doorsteps, backyard, or the sidewalk, at any time of the day, evening or night, but especially between 10p.m. and 8a.m. \textit{This includes, but is not limited to, screaming and shouting, amplified music loud enough to be heard outside the house, speakers facing out of windows, speakers or bands on the roof or singing as well as any other disturbances loud enough to be heard outside.}

F. Sound Reduction
Greek-Letter organizations should take all measures to reduce sound emanating from houses during regular activities and parties. This includes, but is not limited to, closing all windows and doors, sound-proofing music practice rooms, and placing speakers away from windows.

G. Notification of Neighbors
It is mandatory for all Greek-letter organizations to notify their immediate neighbors of a party at least a week prior to the event, including those neighbors next door and behind the houses. The fraternities should put up posters in the lobbies of these area buildings listing the times of the party and identifying the noise complaint phone number and the president or social chair.

H. Backyards
Use of backyards is permitted, provided that the noise is not excessive (i.e. no amplified music, screaming). In addition, there should be no noise of any kind after 10pm (this includes private and open parties). Basketball hoops are not permitted on University owned buildings.

VI. Rooftops of University-Owned Residences
The use of rooftops for parties or any other reason is \textbf{STRICTLY FORBIDDEN} by the NYC building code. No one is allowed on the roof at any time for any reason except for emergency exit without the permission from Housing.

VII. Fireworks
The possession or use of fireworks in the house or on the roof is \textbf{prohibited}.

VIII. Letter Painting
In accordance with New York City law, the painting of Fraternity/Sorority letters on the paved streets (i.e. 113th, 114th, and 115th and so on) is strictly prohibited. Any organization found to violate this policy will face the penalties of the Greek Judicial Board and may be subject to legal penalties as well.

IX. Air Conditioning and Space Heaters
For safety reasons, window-unit and portable air conditioners are not permitted in any residence hall or brownstone. If an air conditioning unit is discovered in your room, your unit will be confiscated and you will be subject to fines and Dean’s Discipline. If you require a space heater, you may request one from the Hospitality Desk. All requests are considered but not guaranteed. You may not provide your own space heater. AC Units found in rooms will be removed.

III. University Administrators
Every week a group of administrators representing Housing Services, Residential Programs and Undergraduate Residence Hall Facilities walk the chapter residences. These routine walk-throughs are a time for administrators address any facility related issues.
THE PUBLIC RELATIONS APPROACH

We can positively promote the Columbia University experience through the maintenance and appearance of our facilities. When the campus and surrounding community see stoops and backyards cluttered with cans, bottles, trash, and debris, a quick judgment is often made about the facility’s residents and the Greek community in general. The Greek areas have a prominent location on campus, and, good or bad, the condition of our homes communicate a great deal to the campus and surrounding community.

Consider the following questions:
- Do our facilities communicate pride in our organizations?
- Do our facilities communicate that we are responsible neighbors in the New York City/Morningside Heights community?
- Does our facility positively reflect on the Greek community and College?

GENERAL MAINTENANCE SUGGESTIONS

Washing Machines:
- Maintenance by university staff. Call the Hospitality Desk for assistance.
- Keep interior clean
- Check washer water fill hoses for cracks, blisters, corroded fittings, and leaks

Clothes Dryers:
- Clean lint after every load
- Periodically, clean exhaust hose that leads to exterior of house
- Periodically, clean lint and fabric sheets from behind dryers.
- Pick up clothes around laundry room

Dishwashers:
- Never wash anything other than dishes in your dishwasher.
- Dishwashers should be run at least once per week to keep seals moist.
- Periodically wipe area around seals to prevent soap scum buildup.

Microwaves:
- Check output efficiency annually (or when needed) – For 600 – 1000 watt microwave ovens, place an 8-ounce cup on water in the oven and operate the unit on high for 3 minutes. The water should be boiling.
- Don’t attempt to repair microwave yourself
- Microwaves should be run on a separate electrical circuit to allow for most effective operating

Refrigerators and Freezers:
- Empty and clean drain pan (when cleaning condenser coils)
- Keep perimeter door gasket clean
- Keep food compartment between 34-40 degrees and freezer compartment at 0 degrees

Range/Oven:
- Keep range top and oven clean
- Periodically check oven-door gasket - should be soft/pliable
- In a gas range, inspect the pilot flame – flame should be sharp blue cone approximately 1/4 inch

Garbage Disposals:
- Clean disposal by putting ice cubes and 1/4 cup of white vinegar into unit and operating it with no running water. When it sounds like the ice cubes are gone, slowly run cold water.
- Keep cooking grease, coffee grounds, hair and soap scum out of the drain

Plumbing:
- If any of your appliances develop a leak call the Hospitality Desk

- Keep yard landscaped and clear of trash
- Keep lid to trash container closed at all times
- Keep trash picked up from outside of trash container
- Check bathtub and shower caulk monthly and request improvements promptly as needed

**GENERAL SAFETY SUGGESTIONS**

Consider the following suggestions in mind as you work to lower the possibility of an accident in your house. Keep in mind that safety tips are only effective if they are shared with the members of your organization.*

- Educate ALL members about facility rules, policies, and safety procedures
- Post guidelines and tips in visible areas (by community phones, exits, bathrooms, kitchen, etc.)
- Verify safety systems (smoke detectors, alarms, fire extinguishers, exit signs, lighting) are checked on regular basis
- Make sure exit signs are visible and in place
- Make sure emergency lights and batteries are working and charged
- Keep stairways clear of debris and lighted at all times
- Close doors that open to a stairway at all times
- Keep exit ways to fire escapes free of debris and maintain access to exit windows.
- Do not allow candles of any kind in the house.
- Submit maintenance requests for broken plaster immediately.
- Never store gasoline or propane inside your house.
- Do not use the boiler room or other mechanical room for storage, especially anything combustible.
- Make sure combustion air inlet for boiler isn’t blocked - could result in carbon monoxide poisoning
- Post the locations of all utility shutoffs in case of flood, electrical fire, etc.
- Do not hang anything from the sprinkler system as it will interfere with the spray pattern of the sprinkler head. Sprinkler may go off.
- Never run wires under a rug, through doorways, windows or any place a wire can get pinched and short circuit.
- Have fire extinguishers checked annually.

* Information provided by the Massachusetts Institute of Technology

**FIRE SAFETY**

Every year college and university students experience a growing number of fire related emergencies. In the majority of cases where fire fatalities occurred on college campuses, alcohol was a factor. The leading causes of fire injuries on college campuses are cooking, careless smoking, and candles. Some causes of house fires include:

- Improper use of 911 notification systems delays emergency response.
- Student apathy. Many are unaware that fire is a risk or threat in the environment.
- Evacuation efforts are hindered since fire alarms are often ignored.
- Building evacuations are delayed due to lack of preparation and planning.
- Vandalized and improperly maintained smoke alarms and fire alarm systems inhibit early detection of fires.
- Misuse of cooking appliances, overloaded electrical circuits and extension cords increase the risk of fires.

**FIRE PREVENTION TIPS**

**Electrical Safety:**
• Replace or repair electrical devices with loose cords
• Avoid running extension cords across doorways or under carpets.
• DON’T OVERLOAD EXTENSION CORDS.
• Be sure extension cords are properly rated and used only temporarily.
• Don’t use an electrical outlet or switch if the protective cover is ajar, cracked, or missing.
• Place lamps on level surfaces, away from things that can burn. Avoid Halogen lamps.
• Use bulbs that match the lamp's recommended wattage.

Cooking:
• Cook only where rules allow.
• Keep the kitchen clean and uncluttered.
• Unplug unused electrical appliances
• Never leave cooking unattended.

Smoking:
• Smoke only where rules allow.
• Use large, deep, non-tip ashtrays.
• Don't smoke in bed.
• It is risky to smoke when you have been drinking or when you are drowsy.

**Kitchen Safety**

Below are a few guidelines that will reduce your chances of having health and safety incidents in the kitchen.

• Wash your hands before working in the kitchen. Also, wash your hands at regular intervals as necessary while you work. Keep nails clean to prevent the spread of germs. Cover any cuts with waterproof dressings. Change the dressings when work in the kitchen is finished. Remove any jewelry that might get in the way and tie back hair.
• In the event of a power outage, foods stored in the refrigerator and freezer will stay fresh for a period of time if the doors are left closed. A full, tightly packed freezer will stay frozen for 48 hours if the door is closed. A partially filled freezer will last for 24 hours. Any cooked foods that thaw should be eaten immediately or thrown away. Uncooked food that still has ice crystals on it or is still cold (40 degrees F) can be safely refrozen.
• Keep foods either hot or cold. The bacteria that cause spoilage and food poisoning grow best when food is lukewarm. Be especially careful with raw poultry, seafood and foods with a base of eggs, such as mayonnaise or egg salad.
• Make sure the temperature in your refrigerator is 40 degrees or under.
• Never leave cooking unattended. If you must leave the kitchen for some reason, turn the heat off.
• If you spill something on the floor, clean it up. Keep a mop or such handy for this purpose.
• Clean any grease build-up from the stove, oven & exhaust fan regularly. Cooking grease & oil ignite easily & burn rapidly. Never use grills of any type in the house.
• Don’t store volatiles such as cleaning fluids, gasoline, and kerosene near food.
• Pesticides such as bug killers, roach poison and rodent bait should be considered dangerous. Store carefully, and not in the kitchen.
• Drain cleaners, bleaches and strong acids can be dangerous.
• Properly clean dishes and utensils. The dishwater hot water should be at least 180 degrees F.
HOME SECURITY

Review the following to help secure your facility and educate members on home security.

Secure Your Space!
Close the door behind you, lock your doors and windows, and do not share your door code or loan your key.

Close it Behind You!
Do not allow unknown people to enter your chapter house behind you, and, do not prop your doors open.

Locks only work if you use them!

Space for Everything!
Do not leave your identification, wallets, jewelry, and other valuables in plain view. Find a safe place to store your belongings.

Identify Your Property!
Encourage members to mark valuables with identifiable marks and take inventory of property.

GENERAL EVACUATION PROCEDURES

When evacuating your facility:

- Stay calm; do not rush and do not panic.
- Safely stop your work.
- Gather your personal belongings if it is safe to do so. (Reminder: take prescription medications out with you if at all possible; it may be hours before you are allowed back in the building.)
- Use the nearest safe stairs and proceed to the nearest exit. Proceed across the street from your house and report to your House Manager.
- Wait for any instructions from emergency responders.
- Do not re-enter the building until you have been instructed to do so by the emergency responders.
